

Landform Analysis

Please return this form on our e-mail address for 3 weeks: sgp@sgp.org.pl

1. Please summarise the nature, contribution and importance of this work:

- | | |
|--|-------|
| 2. Novelty of this contribution | H/M/L |
| 3. Significance of this contribution | H/M/L |
| 4. Suitability for the journal | H/M/L |
| 5. International interest of this contribution | H/M/L |
| 6. Clarity of objectives | H/M/L |
| 7. Quality of methods/correctness of mathematics | H/M/L |
| 8. Quality of data | H/M/L |
| 9. Validity of assumptions and analyses | H/M/L |
| 10. Extent to which the interpretations/conclusions are supported by the data | H/M/L |
| 11. Overall quality of research | H/M/L |
| 12. Is this paper... | |
| a) well organized? | Y/N |
| b) to the point/concise? | Y/N |
| c) written clearly using correct grammar and syntax? | Y/N |
| 13. Is the title informative and a reflection of the content? | Y/N |
| 14. Are the objectives, methods, results and conclusions intelligible from the abstract alone? | Y/N |
| 15. Are the figures/tables | |
| a) useful and all necessary? | Y/N |
| b) of good quality? | Y/N |
| 16. Is the referencing | |
| a) relevant and up to date? | Y/N |
| b) excessive or inaccessible? | Y/N |
| 17. Overall quality of presentation | H/M/L |

18. Can you suggest any improvements to this work, or any parts that could be shortened or removed? Please list these below:

19. What is your recommendation? Select appropriate term according to the following criteria:

- a) accept - publish in its present form
- b) minor revision - requires minor stylistic corrections, improved clarity of text or quality of figures, small additions or deletions
- c) moderate revision - requires restructuring, revision of arguments or interpretations, but these can be achieved without new data or analyses
- d) major revision - requires additional data or major reinterpretation, but the data and ideas presented are valuable and the manuscript can be saved
- e) rejection - cannot be saved or is unsuitable for the journal
- f) not suitable - recommend other publication

20. Do you wish your identity to be revealed to the author(s)?

Y/N

Thank you. Your cooperation is much appreciated.
